DELIVERY

polytec's large fleet of company owned trucks is dedicated to delivering **polytec** products across Australia, covering the majority of Metropolitan and Regional areas.

To operate this service we charge a delivery fee of \$45.00 excluding GST. Should you require a delivery to a particular area or region outside our normal delivery route, please contact **polytec** for an estimated delivery charge.

To ensure a safe working environment for our drivers and customers, we have formalised our position on hand unload deliveries.

The following sheet sizes are **Fork Unload** only: **2400 x 1800, 3115 x 1200, 3600 x 1200** and **3600 x 1800**.

polytec drivers will also require assistance with hand unload deliveries when the weight of any item exceeds 25 kilograms.

5mm, 13mm & 18mm Compact & Xenolith items are stocked nationally at West Gosford (NSW). As a result, once the order has been despatched from West Gosford, we are unable to consent to any order variations or cancellations.

RETURNS

polytec will not accept product returns after 6 months from the original invoice date.

If **polytec** elects to take back an inventory item, it must be in an 'as new' or saleable condition and upon terms agreed.

A re-stocking fee of no less than 15% of invoice value or minimum \$75 (whichever the greater) will apply. Any items not stocked at your local branch and requiring a transfer will incur a restock fee if the order is cancelled when the item is in transit.

Steccawood and easycraft Contours is an MTO (made to order) product. As a result, once the product has been manufactured, we are unable to consent to any order variation, cancellation, or product return.

MADE TO ORDER (MTO)

Alterations and cancellations must be made within four hours of the order being placed. Any alterations and cancellations after this time will incur full charge. Made to order items, components and custom made doors and benchtops can not be returned. MTO inventory items will incur a restocking fee if cancelled.

Steccawood and easycraft Contours is a MTO (made to order) product. As a result, once the product it has been manufactured, we are unable to consent to any order variations or cancellations.

polytec does not guarantee exact colour matches across product ranges due to colour variation in each product group.

polytec now offer online ordering. Scan the QR code to register or login. www.polytec.com.au/login

‡ Limited stock, Ex NSW *Square Edge Only ◆ Not available in Tight Form

△ Tight Form available in 21mm only ◊ Tight Form available in 33mm only

All square edges on Benchtops will be provided with 1mm edgetape as standard where available. 21mm square edge Benchtops only available for colours with matching 29mm edgetape. Square Edge Laminated edging is not available for both Circular tops and tops containing 4 radius corners.

Benchtops manufactured using 3650 x 1220mm laminate are limited in width. Benchtops rolled one side max 1130mm, Benchtops rolled two sides max 1040mm. Maximum length for 33/40mm rolled Benchtops, rolled one side max length 3600mm, rolled two sides max length 3500mm. Maximum length for 21mm rolled Benchtops, rolled one side max length 3550mm, rolled two sides max length 3450mm.

Due to the controls and technology we have within our benchtop manufacturing process polytec can manufacture benchtops in a Tight Form radius.

polytec is unable to guarantee our laminates when manufactured to a radius less than 10mm by other manufacturers due to the fact we have no control over any other manufacturers' process.

When ordering polytec products please quote the Item Code, Edge Tape Code and/or Laminate Code on your order form.

Products to be returned should be strapped for pick up.

 § Not available as double sided ✖ Not available as return panel
 For more information and door styles refer to the **polytec THERMOLAMINATED** doors & panels brochure.
polytec recommend the use of 21mm MR MDF for style 4 doors.

18mm & 21mm MR MDF E-Zero, max size 3050x1200

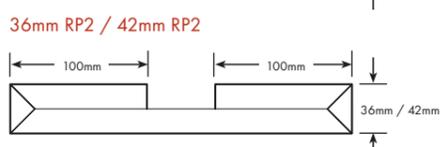

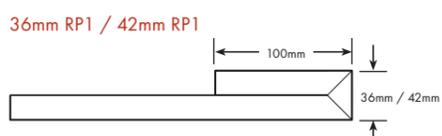

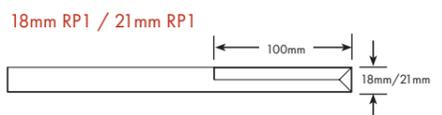

The product is suitable for professionally prepared 2-pack polyurethane or similar coating systems. Water based paints do not tend to bond easily to melamine surfaces and as such, the use of acrylic or domestic oil based paint is not recommended. In all applications, the painting of melamine doors and panels should be referred to a reputable paint-trade professional.
polytec recommend the use of 21mm MR MDF for style 4 doors. For more information and door styles refer to the **polytec THERMOLAMINATED** doors & panels brochure.

Limitation and Design Considerations
polytec do not recommend the use of Thermolaminated Doors and Panels products in a sliding or non-fixed application (hinged) unless the use of a mechanical stabilising system is fitted.

ENVIRONMENT & SUSTAINABILITY

polytec is 100% Australian family-owned brand and for over 30 years, we have taken pride in being an Australian manufacturer, with sustainability ingrained in the core of our operations, products, and work practices, shifting towards continual dedication to improving and enhancing our environmental performance. This involves a steadfast reduction of our carbon footprint, minimising waste, optimising energy efficiency, and integrating ethically sourced materials into our product ranges.

Responsible Wood
RW/1-31-145

Our MDF and Particleboard are manufactured from managed and renewable plantation pine that has been Green Tag, Responsible Wood and PEFC certified. All **polytec** board products are manufactured from E0 or E1 substrates, with particleboard now made from a percentage of recycled wood material.

PEFC
PEFC/21-31-145

The reDirect Recycling Wood Recovery Initiative services **polytec** customers by collecting raw and melamine coated particleboard offcuts for reuse. These materials are diverted from landfill and repurposed into new particleboard within our closed loop manufacturing processes, reducing waste and preserving valuable plantation resources.

polytec are striving to reduce carbon emissions by installing solar panels throughout all sites nationwide. Since 2018 over 46,000 solar panels across the network of facilities have been installed. When installed, the Oberon facility was Australia's largest rooftop solar system with over 27,000 solar panels over eight hectares.

polytec is on a journey – one that places sustainability at the centre of how we design, manufacture, and support our customers. We believe that sustainable practices are the foundation of strong, resilient communities – and we're committed to contributing to a healthier, more sustainable future for all.
