RELIANCE LIMITS

According to current legislation, the liability of Signaturit Solutions and, therefore, of the RA, does not extend to those cases in which improper use of the certificate is originated from conduct attributable to the subject or the relaying party:

- Have not provided adequate information, initial or later as a result of changes in the circumstances which are reflected in certificate, when his inaccuracy has been able to go undetected by the certification service provider.

- Have incurred in negligence with respect to the preservation of the signature creation data (when these are in the possession of the signer), the use of certificate and signature activation PIN and their confidentiality.
- Not having requested the suspension or revocation of certificate in case of doubt about the maintenance of confidentiality.
- Having used the signature after the period of validity of certificate.
- Exceed the limits listed in the certificate.
- Conduct attributable to the user part if it acts negligently, i.e. when no check or note the restrictions contained in the certificate as to their potential use and limit of amount of transactions, or when you do not consider the State of validity of the certificate.
- The damage caused to the subject or third parties that trust due to the inaccuracy of the data that is contained in the electronic certificate, if these have been accredited him through public document, registered in a public if so it is enforceable.

OBLIGATIONS OF SUBSCRIBERS

Shall be duty of the subscriber of a certificate:

- Supply all the information and documentation required, responsible for its accuracy and correctness.
- Immediately notify the CA when it detects that it has included any incorrect information or inaccurate or should, in a sudden way, the information of the certificate does not correspond with reality.
- Keep passwords or pins in a diligent manner, taking reasonable precautions to prevent its loss or unauthorized disclosure, modification or use.
- Request the suspension/revocation of the certificate if any of the assumptions of suspension and revocation of certificates referred to in the PC and the legislation in force.
- Report immediately to the CA about any situation that may affect the validity of the certificate, or private keys.
- Use the certificate according to law and the limits set by the PC and own certificate.
- Any other derived from the content of the specific PCs for each type of certificate.

CERTIFICATE STATUS CHECKING OBLIGATIONS OF RELYING PARTIES

Shall be duty of the relying party comply with provisions of the existing regulations and, in addition:

- Verify the validity of certificates before performing any operation based on them. The TSP Signaturit Solutions has various mechanisms to perform this check as access to certification revocation lists (CRL) or OCSP online query services. Access to these mechanisms is described in CPS.
- Know and comply with warranties, limits and responsibilities applicable in the acceptance and use of certificates you trust, and accept to conform to the same.
