Our services

All of our services are provided by active researchers who understand your discipline and the importance of publication. Plus, all of our services are covered by the AJE guarantee, so you can be sure your work is in safe hands.

Language editing

We offer both a Standard and Premium Editing service, delivered by PhD-level experts in your field of research. This will help to ensure natural phrasing, improve word choice (including field-specific terminology) and correct grammar, punctuation and spelling.

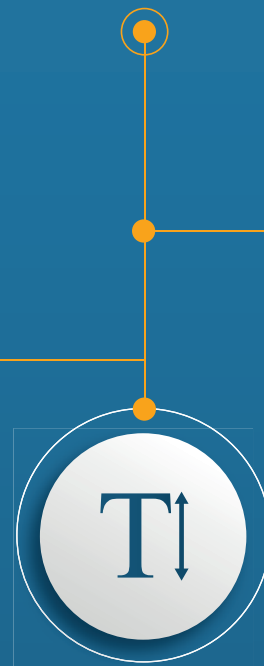

What's included?

With the **Standard Editing service** you'll receive expert editing of your paper and an AJE Editing certificate. This confirms that your manuscript was edited by a native English speaker at AJE and that the English in your manuscript is ready for submission, assuming all of the proposed changes are made.

The **Premium Editing service** also includes the highest level of editing by an expert in your field, unlimited free re-edits and customer support from a Research Communication Partner with an advanced degree.

Formatting

We can provide formatting of your manuscript to meet the exact specification of your target journal. This includes modifying page layout, text formatting, headings, title page, image placement, and citation and reference format. We will also provide comments identifying any missing elements in your paper.

Translation

We offer a translation service from Chinese, Japanese, Portuguese or Spanish into publication-quality English. This involves a careful translation of discipline-specific terms and additional language editing (as detailed above).

Figure Preparation

We can provide publication-ready tables, charts and graphs to the specifications of your target journal. We can create custom models, diagrams and illustrations, as well as transforming your hand-drawn sketches into publication-ready illustrations.

Video Services

Our team of researchers and professional animators will use multimedia to help you tell your story to colleagues, collaborators, funders, and society.

Journal Recommendations

Our team of academic experts will help you select the most appropriate journal for your article based on topic, scope, impact, and your specific publishing goals.

About the partnership

At Cambridge University Press, we're proud to have been a publisher of world-leading content for more than 400 years. To continue to publish the best in global research, it is essential that we support researchers anywhere in the world in submitting their work to us. In order to help prospective authors to prepare for submission and to reach their publishing goals, we offer a range of high-quality manuscript preparation services, delivered in partnership with American Journal Experts (AJE).

● About Cambridge University Press
