After thorough discussion, the following decisions were reached:

1) **Establishment of working groups** – Taking the practice of setting up professional committees under the Steering Committee of Library and Information Work in Higher Education Institutions in Guangdong Province as a reference, 3-5 working groups should be established under the alliance. In the initial stage, "Chinese Name Authority Control Group", "Technical Innovation and Collaboration Group" and "Librarian training and Career Development Group" will be set up. Other working groups will be set up according to actual needs.

2) **Joining the alliance** – In addition to the original regulations, which was the library of the member of the Guangdong-Hong Kong-Macau University Alliance (GHMUA) would automatically become a member of the Guangdong-Hong Kong-Macau University Library Alliance (GHMULA), libraries that wished to join the alliance could submit an application to the alliance secretariat, and would become a member after being reviewed and approved by the alliance council meeting.

题目：开放获取与转型化合约 – JULAC 的经验分享

JULAC 自 2021 年与剑桥大学出版社及卡尔格出版签署首两项转型化合约，至今已与六间出版商达成相关的协议。JULAC 在开放学术立场声明中，申明对开放获取出版的全力支持。其中, 在剑桥大学出版社的转型化合约实行后, 开放获取文章的数量由 2020 年前的每年 5 份，增加至 2022 年的每年 96 份，这正是十分具体的例子。

JULAC 在推动转型化合约的过程中面对不同的挑战。于 2019 年 JULAC 比对从出版商提供及由线上收集的文章处理费 (APC)数据，发现两者相差甚巨，引致 JULAC 未能藉此取得可靠的基准来与出版商就转型化合约进行磋商。于此推动期间 JULAC 在准备转型化合约谈判所要考虑的策略和营运因素的同时，

要向不同持份者阐释转型化合约的利弊。展望将来，JULAC 须优化自身谈判策略，并加强与持份者合作，以推动开放获取的发展。

Speaker: Flora Ng, Chief Information Officer / University Librarian of Hong Kong Libraries

Topic: Open Access and Transformative Agreement – JULAC's Experience

JULAC has entered its very first two transformative agreements with Cambridge University Press (CUP) and Karger Publishers in 2021. Until now, JULAC has already entered consortium transformative agreements with six publishers. As stated in JULAC's Position Statement on Open Scholarship, JULAC is committed to enabling Open Access (OA) to research publications. It was observed that the number of open access articles published annually via CUP has increased from 5 (before 2020) to 96 articles in 2022. This served as an example of tangible support that libraries can provide to their institution's researchers in making their work as open access.

JULAC's journey on transformative agreements was challenging. An Article Processing Charges (APCs) collection exercise was conducted in 2019. There was a huge difference between the data collected from the publishers and that collected online. JULAC did not have an accurate cost baseline with which to enter negotiations on transformative agreements with publishers. While our libraries were still learning about the strategic and operational considerations to be made when preparing for negotiation, we had to demonstrate to other stakeholders the value and benefit of such a transformative agreement deal. Moving forwards, JULAC needs to strengthen our negotiating position and works together with other stakeholders to drive a transition of scholarly journal publishing to open access.

题目：数字的力量：JULAC 学习策略委员会的最新合作项目

这简报讲述近年来 JULAC 研习策略委员会成员的共同协作。「JULAC 网络研讨会系列」各图书馆轮流与供货商协调及主持共享资源研讨会。 除了提高效益外，供货商更指派多位高级工作人员参与。 「教学馆员之能力建设计划」 资深馆员根据以往的专业发展编制课程内容，参与者将所学的知识与朋辈小组一起付诸实践。展望未来，委员会希望建立一个充满活力的实践社群。未来的潜在项目包括「实时跨馆参考咨询服务」、「信息素养测验」及「微证书」，各项目在现阶段都是初步想法，委员会仔细考虑各项目预期的成本效益，具有充分理据下去实行。

Speaker: Christopher Chan, University Librarian of Hong Kong Baptist University

Topic: Strength in Numbers: Recent Collaborative Projects of the JULAC Learning Strategies Committee

This presentation spotlighted how members of the JULAC Learning Strategies Committee (LSC) have worked together in recent years. One project was the JULAC Webinar series, where each library takes it in turn to host a vendor webinar for a resource shared in common. Apart from efficiency gains, the LSC found that vendors tended to assign more senior staff compared to webinars organized for a single institution. A second highlight was a capacity building programme for instruction librarians. Experienced librarians prepared course materials based on prior professional development, and participants put this knowledge into practice with cross-institutional peer support groups.

Noting the diversity amongst JULAC institutions, it was noted that compromises are necessary. Going forward, the LSC hopes to build a vibrant community of practice. Potential future projects include collaborative chat reference, information literacy testing, and microcredentials. All of these are mere ideas at this stage, and the LSC will need to carefully consider whether any will be justified in terms of return on investment.
