Re: **Add ZWJ, VS-16, Keycaps & Tags to Emoji_Component**

To: UTC
From: Jeremy Burge, Emoji Subcommittee
Date: 2017-03-27

The Emoji Subcommittee recommends specifying additional characters as Emoji_Component.

This extends the list of characters in the original Emoji Component proposal (L2/16-238R) so that any character that may appear in a well-formed Emoji Sequence or Emoji ZWJ Sequence is in the union of Emoji=Yes and Emoji_Component=Yes.

Proposal

Add the Emoji_Component property to the following characters:

Name	Code Point
ZERO WIDTH JOINER	U+200D
VARIATION SELECTOR-16	U+FE0F
COMBINING ENCLOSING KEYCAP	U+20E3
TAG characters	U+E0020 — U+E007F
